Our Work Experience trips offer students the opportunity to spend a week with fellow A Level linguists working, living and practising their language skills in France, Germany or Spain. Students are matched with work placements based on their preferences, interests, skills and experience.

Available for school groups as a tailor-made service or individuals as part of our mixed school trips, we welcome all students to join our trips. Arrive with or without friends and make new ones!

The Blue Stamp team are available at any time to parents, teachers and students for in-person advice, help and support. Our online portal also eliminates unnecessary paperwork for teachers.

Elizabeth had a fantastic time in Lille, with her host family, at the restaurant and with some new friends! Yesterday evening she came home from her first day back at school and, having had her regular conversational lesson with a language assistant, told us that she'd had a great lesson, much easier and more fluent than ever before. The trip worked really well on every front.
